5. Fall of the value of Ruble, the Russian currency, pointed towards a falling GDP and economic crisis.

6. The GDP of Russia was comparatively lesser in 1999 to what it was in 1989 before disintegration.

→ Poverty and No Food security

7. Since the welfare state was now replaced by the market forces, the economically weak sections were forced into the savagery of poverty.

8. Privatisation of agriculture meant that there was no ensured food security and people started dying of starvation.

→ BANKRUPTCY IN RUSSIA

9. According to estimates nearly 1,500 banks went bankrupt leading to the loss of money of nearly 10,000 share holders along with the savings of general public.

→ Hence the shock therapy brought ruin to Post soviet economies.

## A22. PROPOSED CRITERIA FOR A NEW PERMANENT / NON PERMANENT MEMBER IN UNSC :-

(b)

1. The UN Secretary General in January 1997 outlined the mentioned criteria for a new member in the UNSC in response to the repeated demands of increasing the membership of UNSC as an effective tool to reform the UN and make it more broad representative :-
2. The new member should be
  - (i) A major economic power
  - (ii) A major military power
  - (iii) A regular contributor to the UN budget
  - (iv) A nation respecting the civil liberties and democratic rights of its citizens
  - (v) A huge country in terms of its population
  - (vi) A country that makes the council more representative in terms of geography, culture etc.

### LIMITATIONS

3. All the countries round the globe find certain criteria well justified while others a bit troublesome according to their own national interests.
4. But it is not difficult to point out certain problems with every criteria like
  - (i) How big an economy should the country be?
  - (ii) Is a huge population an asset or a liability for a developing country like India etc.

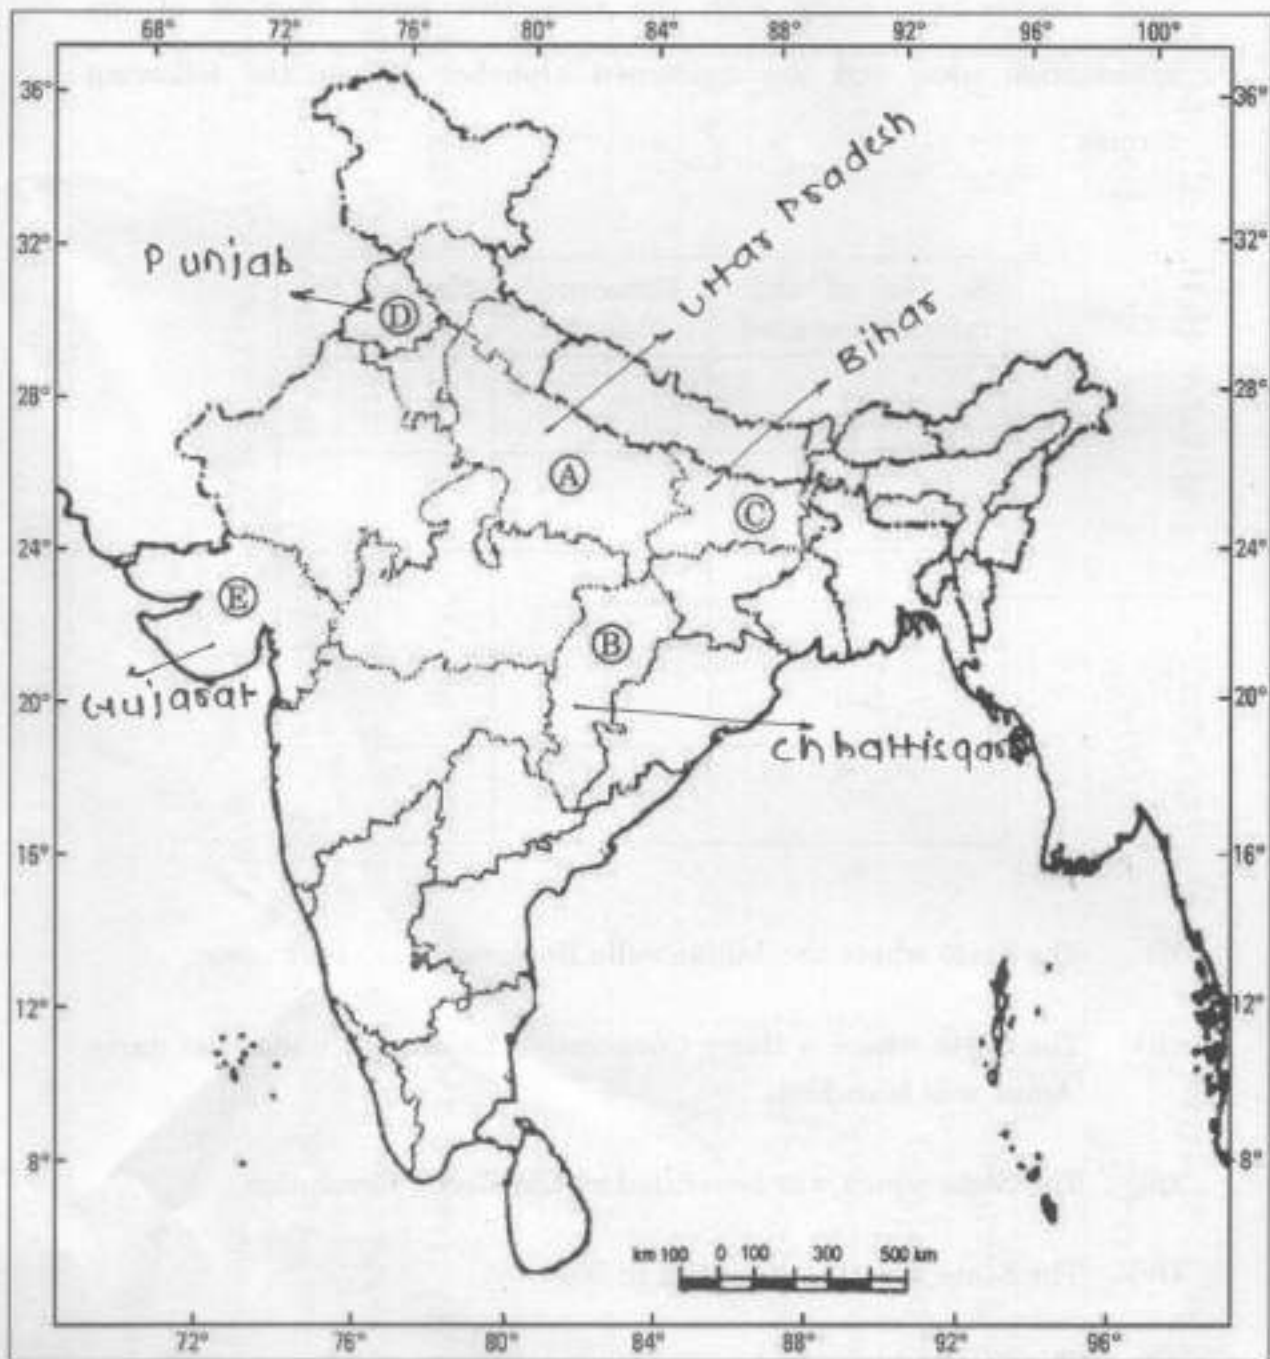

### CONCLUSION

Hence the proposed criteria have several loopholes which need to be carefully addressed before reaching to a conclusive point:

(b) The Congress Party was the leader of the nationalist movement that ultimately won freedom for India. It launched several movements under the leadership of Mahatma Gandhi like the Non Cooperation, Civil Disobedience and Quit India Movement.

With every new movement it widened its social base including participants from various social strata and economic backgrounds; the rich and the poor alike. It turned it into a mass political rainbow like social coalition at the time of independence.

(c) When people from various social groups linked themselves to the Congress like the rural poor, the urban middle class and the rich industrialists like G. B. Birla, its leadership too expanded to include various leaders with a rural orientation.

(a) Hot war refers to a direct military confrontation using nuclear missiles and deadly weapons killing many in on both the sides. For example - Second World War in 1939-1945.

(b) The placing of nuclear missiles in Cuba to convert it into a Russian base by Nikita Khrushchev and the interception of Soviet ships heading towards Cuba as a way of warning it by John F. Kennedy

after the Americans became aware of the presence of the nuclear weapons, clearly displayed the intention of both the sides to avoid a full fledged hot war.

At the same time it also expressed the existence of the ongoing cold war between the two superpowers and the whole world became aware of it.

Hence Cuban Missile crisis was the high time of the cold war.

Q.17. (a) Referendum refers to a direct vote through which people of a region are asked to accept or reject a decision or a proposal.

(b) Yes in my opinion "Acts like arrests of thousands of persons and censorship of the press during emergency period were non democratic" since the arrested people were not informed of the grounds of their arrest and they were banned from filing petitions in the court challenging their arrest. Hence the government had turned completely arbitrary during emergency.

(c) The only common policy or objective that existed between the diverse parties like PSP, Bhartiya Jana Sangh, etc. that made up the Janata Party was opposition to emergency.

It lacked a comprehensive programme and could not pursue divergent policies from the Congress. It was also unstable in its outlook and was hence punished by the voters.

A3. A coalition government is formed when any party fails to secure a majority in the Parliament or state Assembly.

and hence a number of parties join hands to together run the government sharing their votes and seats.
